

What is SAC?

The Staff Advisory Council (SAC) is a group of Notre Dame non-exempt employees that serves as a pipeline of information between the University administration and staff. SAC members are elected to two-year terms and represent staff from every corner of the campus and every operational area.

What does SAC do?

SAC is an advisory group that does not form policy, but shares important information about the University with other staff members and also collects ideas and thoughts from the staff to help advise the administration on important issues. Very often, members of SAC share their perspectives on University issues through focus groups or through various committees on topics such as benefits and parking.

What has SAC done?

SAC was formed in 1996 and has given valuable input over the years on issues such as the availability of football tickets for all staff, tuition reimbursement for all employees, health benefits changes, and parking policies.

For More Information:

please visit the SAC website at sac.nd.edu or call the Office of Human Resources at 631-5900

**John
Affleck-Graves**
Executive Vice President

*“Effective communication
is essential to Notre Dame’s success.*

*The Staff Advisory Council plays a key role in
facilitating the flow of information between the
University’s administration and its employees.*

*I greatly value the opportunities I have
to meet with SAC to help foster this
communication.”*
